[504] Carbolic acid was first discovered in the 1830s, is most commonly derived from coal oil and became a commonly used antiseptic by the late 1860s. In modernity it is generally used in the production of plastics and is more commonly known as Phenol. Hudson acquired his from a local drug store. For more information please see: P. P. Giri, R. [539] At the time of this publication there are no details on what exactly the "Violet Circle" was. It was listed in general newspaper lodge reporting. The organization does not appear in city directories, as lodges often did. This was likely a social organization that can be likened to the International Order of Oddfellows, the Masonic Temple or the Benevolent and Protective Order Of Elks.
